MONEY GUIDANCE TRAINING

Do your clients need money help that you can't provide to them?

Are financial problems preventing them from achieving their aims for your work together?

Upskill your staff and volunteers, and embed money guidance into your existing offer to reduce the need to signpost people elsewhere, and make your work more effective and impactful.

Our money guidance training includes in-person training, individual e-learning plans, and consultation to help you to plan how to incorporate money guidance into your organisation.

In-person workshops will cover:

- Money Guidance in your Everyday Practice
- Empowering your Clients to Manage their Finances
- Calculating Household Entitlement to Welfare Benefits
- Strategies and Tools for Money Management

Money guidance resources are included so your staff can get started immediately putting their learning into practice.

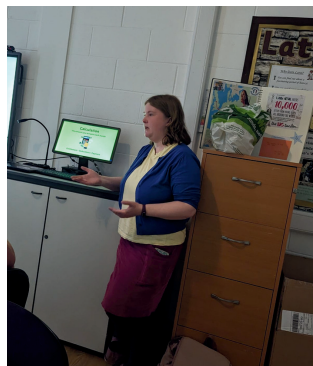

Contact us at cic@talkaboutmoney.org.uk for more details.

MONEY GUIDANCE TRAINING LAUNCH EVENT

FRIDAY 8TH NOVEMBER, 11AM - 12PM

Merseyway Innovation Centre
